Message from Organizers

Dear Colleagues,

In the current times, with high energy road traffic accidents the complexity of trauma, especially around knee, has increased. Every Orthopaedic surgeon deals with trauma and every Orthopaedic trauma surgeon has to deal with trauma around knee. With innovations and better understanding of surgical techniques, clinical approach and fixation options of the complex injuries around knee, it is vital for every Orthopaedic surgeon to be updated with them. 'DOA Knee Trauma Symposium' is being organized at University College of Medical Sciences, Delhi with the intent to learn, discuss and update ourselves with the current practices and recent advances. This symposium will have talks from experienced trauma surgeons and speakers, along with discussion sessions and saw bone workshops.

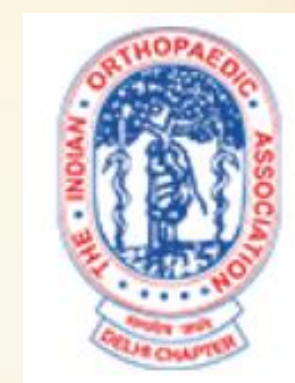

We invite you to join us on 19th March 2023 for this academic feast and share your experiences and improve the patient care.

Dr. I.K. Dhammi
Organizing Chairman

Dr. Rajiv Jain
Organizing Chairman
